# Competency Undertaking

This Competency Undertaking form should be used to reflect on your progression for each of your top 6 competencies, i.e. those which have been most relevant and impactful in your overall learning and development as a Team Entrepreneur.

By the final portfolio submission, ensure you have completed a separate Competency Undertaking template for each of your top 6 competencies and provide a link to each in your Personal Portfolio within the Competency Record tab.

You can view the ***UWE TE Competency Framework*** at [this link](#).

## Competency

What is the name and definition of this competency?

How is this competency relevant to my situation and SMART Objectives?

Word count: 0 (Max 200)

# Progression Summary

Evaluate your overall progression in this competency. What was your starting point (i.e. Foundation, Intermediate, Advanced or Expert) and why did you rate yourself at this level? What level did you reach, and was this in line with your expectations? Based on what you know now, how accurate was your self-evaluation at the start? Were you ambitious enough or too ambitious? Were there any key factors that contributed to your level of progression in this competency?

Word count: 0 (Max 300)

# Key Learning

Explain the most significant learning moments that led to the development of this competency. For example:

*"After running a market stall in Bristol City Centre, I felt I gained real sales skills, including handling rejection..."*

*"After attending a Creative Conversation on sustainability, I realised the impact my current supply chain could have on carbon emissions..."*

Word count: 0 (Max 500)

# Progression through Practice

Think about your projects, ventures, your activities within the Team Company and/or working towards your exit strategy/specialism. How did you achieve progression in this competency through practice ("Learning by Doing")? Discuss how you have taken action to put this specific competency into practice. How has practicing this competency contributed to your overall development?

Word count: 0 (Max 500)

# Progression through Enquiry

Drawing on all of the enquiry-based learning activities you have engaged in which relate to this competency, summarise your overall understanding of this competency. You might consider:

- Key theories, models, frameworks and methodologies that you have learned about, in relation to this competency.
- The key insights you have taken from the different sources of knowledge you have engaged with, including comparing and contrasting of different perspectives to form your own judgement.
- How your professional values, ethics, practices and behaviours have been influenced by enquiry-based learning relating to this competency.
- How has developing your knowledge of this competency enabled you to apply it in practice more effectively?

Word count: 0 (Max 500)

## Next Steps

Considering the level you have reached so far in this competency, how will you apply this competency and/or develop it further in the future? Consider how you might apply/develop this competency within your projects and ventures, your Team Company and your professional/self development.

Word count: 0 (Max 300)
